Mr. [REDACTED]

Rest of staff

JUL 28 1955

MEMORANDUM FOR: Inspector General

Kirk:

25X1C

Have discussed with [REDACTED] your survey recommendations for the Medical Staff (22 April 1955 report) that Administrative Officers, Nurses, and Technicians be upgraded. Although Personnel is now following up on these recommendations, I feel that misunderstanding and trouble could occur if their technical decisions run counter to the recommendations of your Staff member.

Couldn't we arrange to have your people check such items with the Position Evaluation Division of Personnel prior to preparation of the Inspection Report? I believe this system would accomplish any justified classification adjustments quickly and painlessly.

[REDACTED]
L. K. White
